About This Game

fault - SILENCE THE PEDANT is a Cinematic Visual Novel with Point and Click Adventure elements that takes place 5 years before the events of fault - milestone one. After her grandfather, the Royal Guardian to the king, loses his life in the line of duty, Ritona starts to become disillusioned with the notion of honor and duty to serve one's country.

Why would one devote their life to a King or a Princess that ultimately has no emotional bearing to their lives?
What is honor, and what is devotion?
What does it mean to be patriotic?

A 14-year-old successor to the title of Royal Guardian struggles with these questions.

Playing through fault - milestone one and milestone two side:above is advised, but not required.

Boiled Egg

Use | **Examine**

I just heated this egg up with a kravte.
Flora thinks it's stupid, but boiling an egg in your hand
requires quite a bit of skill.
